Review of my connections and work within my local schools

schools work resource from the November Youthwork Magazine 2016 from Claire Clinton (Newham Faith in Schools)

Fill in the squares, adding comments for each school you work in, whether you agree, disagree or somewhat agree with each statement. If needed you can print this sheet out again for multiple schools, or carry on using a blank piece of paper. You may want to add ideas or thoughts for how to develop your connections in these different areas, or add your own statements to keep yourself or your team accountable to.

Name of the school	I have a sense of what God wants to happen in this school	I pray regularly with others for this school	I prayer walk the area around the school	I regularly work in this school	I know the names of those I work with in the school	I know about the lives of those I work with in school	I pray for those I work with by name	I have opportunities to pray with those I work with in school	I have opportunities to talk about what I believe with staff and students
